

# V4 Purple Power for use on robot

**NORMEK**

Tel. 08-188210, normek@normek.se, www.normek.se

## Extreme grinding performance in industrial use

### Ideal for use on

- grinding robots,
- grinding automat and
- powerful drive units

### Your advantages

- extreme stock removal rate of 20 kg (C45)
- efficient due to fewer tool changes
- high degree of ergonomics

**V4**  
**Purple Power**  
*iQ Series*

STOCK REMOVAL

**20 KG**

## V4 Purple Power

### 20 kg of stock removal with one tool

**Quality:** ★★★

**Materials:**

**Grit:** Ceramic 36

**Diameter:** Ø 125 mm

**Certificates:** oSa, EN13743, European Patent

**Suitable for:** robots, angle grinder  
 $v_{max}$ : 80 m/s

$P_{min}$  1.500 watt

**Safety information:**

**iQ Series**

**Characteristics:**

- High Performance CERAMIC grain
- steel backing plate
- optimized V4-shape of flaps

**Machinable materials:**

- steel/Inox
- aluminium
- cast
- titanium

**The Lamellar Flap Disc „V4 Purple Power“ developed for industrial use achieves extreme stock removal rates:**

A single tool cuts 20 kg of structural steel when used on a robot. Compared to conventional tools the V4 Purple Power increases the removal rate by up to 250 % and achieves a tool life of 3.5 hours. The carrier plate is made made from recyclable metal.
